

DIRECTIVEWORKFORCE INVESTMENT ACT

Number: WIAD05-3

Date: September 27, 2005

69:20:jw:9490

TO: WORKFORCE DEVELOPMENT COMMUNITY

SUBJECT: TRACKING CLIENTS NEEDING SERVICES DUE TO HURRICANE

KATRINA

EXECUTIVE SUMMARY:

Purpose:

The purpose of this directive is to provide guidance on how to begin taking applications and tracking clients in need of services in California due to the devastation caused by Hurricane Katrina.

Scope:

This directive applies to all Workforce Investment Act (WIA) sub-state grantees.

Effective Date:

This directive is effective on the date of issuance.

REFERENCES:

- WIA Directive WIAD04-18, Title I Eligibility (March 29, 2005)
- WIA Directive WIAD04-17, Client Forms Handbook (March 24, 2005)

STATE-IMPOSED REQUIREMENTS:

All requirements in this directive are State imposed.

FILING INSTRUCTIONS:

This directive finalizes WIA Draft Directive WIADD-103, issued for comment on September 8, 2005. Retain this directive until further notice.

BACKGROUND:

Hurricane Katrina struck Louisiana, Mississippi and Alabama on August 29, 2005, flooding New Orleans and causing extreme loss of life and property. California is

reaching out in cooperation with the Federal Emergency Management Administration (FEMA) and under the leadership of the Governor's Office of Emergency Services (OES) to assist individuals displaced from their homes and their employment due to the disaster. In order to assure that these individuals receive needed assistance, this directive provides guidance on how to begin tracking clients reaching out through California's Workforce Investment Act employment and programs for re-employment and supportive services.

This directive focuses on how to report and track these clients. Workforce Investment Division staff are currently working with the Department of Labor Employment and Training Administration to identify and remove barriers in law and regulation that may limit California's ability to help individuals re-enter the labor market and receive the necessary assistance to regain self-sufficiency. There are questions regarding the eligibility of these individuals under the various funding streams. This directive provides a process for capturing client information and enabling initial service without regard for funding stream. Future guidance will address questions regarding the use of specific fund sources and the questions regarding eligibility. We appreciate your patience during this difficult time. We will keep you informed as additional information is received by the Employment Development Department.

POLICY AND PROCEDURES:

A Job Training Automation (JTA) system Application Form and an entry on the Enrollment Form must be concurrently initiated on all individuals indicating that they have relocated to California due to Hurricane Katrina. The process for completing the Application and initial enrollment is outlined below. Immediate modification is being done to the JTA system to allow for completion of this special reporting process. This reporting will allow both State and local staff to quickly identify and manage services for clients evacuated to California because of Hurricane Katrina.

If the individual requesting assistance has evacuated to California because of Hurricane Katrina, the reporting process outlined below should be followed regardless of the initial level of service. This includes clients requesting core services as well as those individuals requesting or in need of intensive and training services.

1. Application Form

Please complete as many fields on the Application Form as possible. The minimum required fields are highlighted on the attachment Application Form. Please report "No" in Field 03 *Universal Access*.

In keeping with State law and recent federal guidance, every effort should be made to verify the individual's right-to-work in the United States. If the evacuee indicates that he/she does not have appropriate documentation due to the disaster, service should be provided to the client and documentation of Right-to-Work should be verified later. This emergency Right-to-Work status expires October 15, 2005.

For the purpose of completing the JTA Application, if Right-to-Work has not been verified, indicate "No" in the Application field 14b. *Right-to-Work in the U.S.* This field can be changed to "Yes" when proper documentation is obtained. The JTA Roster may be used to track these clients and assure that, if services continue, the Right-to-Work status is properly document and updated on the Application. The JTA system will allow this Application to be processed even with the negative Right-to-Work status.

2. Registration with FEMA

All evacuees should be registered with FEMA. This registration process may be completed on-line or by phone. The Web location for on-line registration is www.fema.gov/register.shtm. The following numbers may be used for registration by phone:

1-800-621-3362 1-800-462-7585 (for the hearing impaired)

3. Initial entry on the Enrollment Form <u>must</u> be completed at the same time as the initial Application.

Regardless of what additional assistance is provided, an initial Enrollment should be completed for the client. **The Grant Code for all Hurricane Katrina evacuees should be 777. The initial entry on the Enrollment Form must be Activity Code 20.** Please refer to Attachment 2. Following this entry, all other reportable services provided to the client should be entered on the Enrollment Form following the usual JTA processes.

4. Funding

Grant Code 777 is a participant only grant code with no funding attached. Federal and State guidance requires that a participant record be reported if WIA dollars are spent for staff-assisted services. For this special client group California is requiring enrollment of all clients, regardless of level of service. However, for State reporting purposes, these clients are not required to be associated with a specific funding system. Co-enrollment of clients is a local decision and is not required.

5. For questions regarding how an evacuee may apply for unemployment insurance benefits, please ask your Employment Development Department Job Service partner for assistance. Also, there is a California Unemployment Insurance press release that provides general guidance.

The new Grant Code 777 and the new Activity Code 20 "Hurricane Katrina" will be installed and available for use in the local-side databases September 9, 2005. For Standalone JTA system users the release files will also be available September 9th on the File Transport Protocol site at endor.jta.edd.ca.gov and on the timeshare server at jta.cahwnet.gov. The JTA system will allow the applications and enrollments

associated with Grant Code 777 to be processed without regard for the eligibility code determination in Field 93 on the Application Form. These client records will transmit to the Stateside of the JTA system as part of the normal monthly Individual Participant Data reporting process. Due to the special circumstances for these clients, this grant code will not be included in the local level performance calculations. If these clients are co-enrolled in other formula grant codes (Adult and Dislocated Worker) they will be included in local performance calculations.

ACTION:

This directive is effective immediately and should be brought to the attention of staff at all client access points.

INQUIRIES:

Questions regarding this client tracking process should be directed to your <u>Regional</u> Advisor or the JTA Help Desk at (916) 653-0202.

/S/ BOB HERMSMEIER
Chief
Workforce Investment Division
